Campaign Creation

As before, the insertion spaces must be created on each station by enabling the corresponding flag, as shown in the image.

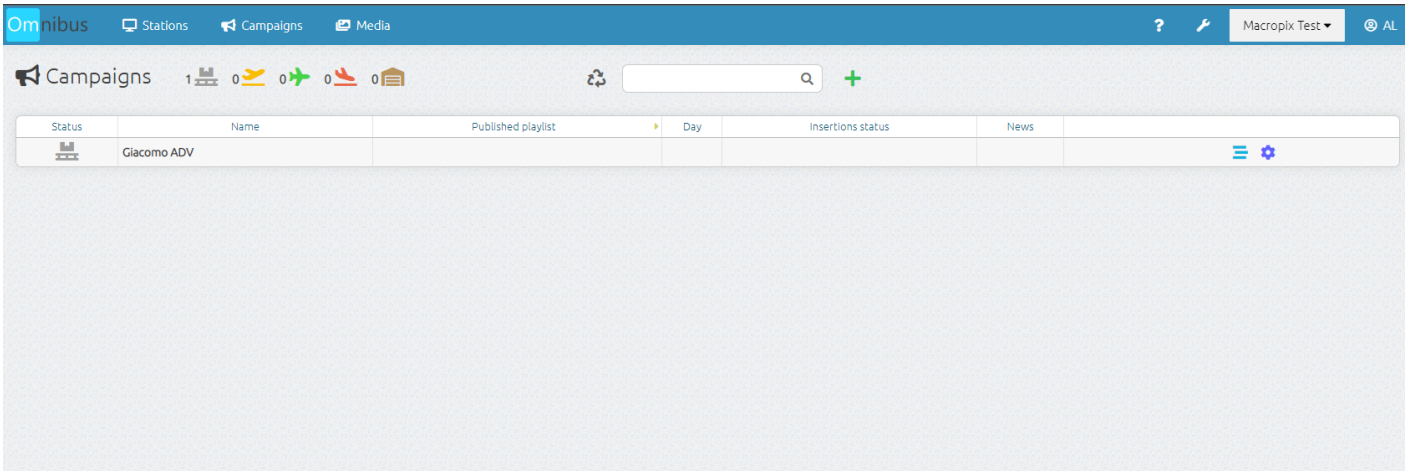

This operation can be performed on both **“Total”** and **“List”** elements within the playlist.

Then enter the **Campaigns** menu, click the **“+”** button, and assign a name and initials.

At this point, the campaign has been created and is now ready to be populated with content and published.
