

Energy Saving function

Online	Media	Screen status	Software	Licence	Name	Log	Resolution	m²	Published playlist	Brightness	Power Saving
✖	✔	⏸	⚠		Master Test 103°22'	600x300	-	2022-09-23 14:21		⚙
⏸	✔	⏸	⏸		Led Magazzino Test		300x100	-	2022-09-06 10:02		⚙
⏸	✔	⏸	⏸		Led Atrio Test		300x100	-	2022-09-06 10:24		⚙

In the **Power Saving** column, you can view the currently selected energy-saving mode.

Power saving mode selection and consumption estimation

	Playlist & brightness	Consumption/year	Cost/year	Save
Eco+		3126 kWh	1563 €	53%
Eco		3875 kWh	1938 €	42%
Balanced		5317 kWh	2659 €	21%
Standard		6694 kWh	3347 €	0%

Cost / kWh €

It is possible to select the desired saving mode and set the electricity cost per kWh.

Omnibus will then calculate the operating hours of the LED wall, the brightness table, and the contents loaded in the playlists, allowing you to obtain an estimate of the annual power consumption.

Revision #4
